NEW TRILBY DIVIDE MINING COMPANY

D. F. Murphy, president; J. M. Fenwick, vice-president; E. Lang, secretary.

This company has been organized to take over the property and plant of the original

Trilby Divide Mining Company

which has been jost to the old company upon judgment, execu-tion and sheriff's sale. Stock-holders of the old company may obtain shares in the

New Trilby Divide

Mining Co. the surrender of the old certificates and the payment of the per share on or before the 31st day of March, 1921, after which date no further exchanges

will be made. The Trilby consists of four claims lying between the Rosetta and Gold Seam; has a shaft 180 feet deep, full working equip-ment, has splendid surface showings and is well worthy of detemers who are not holders of Trilby stock to pick up, if posible, some of the old stock and pay the assessment. It turely make you a big profit.

I have lived in Tonopah for nine years and have enjoyed the patronage of the public f r th t length of time and have 194 pianos that I tune by the year. Contract \$7.50. May I have yours?

FIRE OIL INDUSTRY, this contagain 720 freeze right in the "care to the new oil district in and the County California and is done in a cd to inte sale serial same and that Ty stocks The affred in this accurpancy the Freist to Peter , in Josepher San Francisco or Los Angeles and the price of the stock will

STATEMENT OF MR. T. J. MEDDOCK THE CALIFORNIA PETROLEUM AND REFINENC COMPANY

be raised to 50c per share.

Gentlemen: I Take pleasure in sending you a brief statement upon your oil holdings of Colusa Co.

California. First of all, you are centrally located in what is almost certain to be in the near future one of the great oil producing and many more will be working soon. districts of California, Next in

OFFICE OF COMPANY

UNDER POST OFFICE BUILDING

TONOPAH, NEVADA

TO THE PUBLIC

After studying the outlines of this wonderful structure in the picture herewith presented and considering its After a further and more thesignifigance in the oil world you should not fail to grasp the opportunity now available, visit our office now open, and see samples of oil produced in that district. The highest grade lubricating oil yet discovered, and brings the highest price paid for a crude product, also specimens of the formation, an oil shale with all sorts property.

Respectfully of fossels and shells cemented together. Although the district is quite new there are many drills now at work

line is that most wonderful structure commonly called a "dome" or sign post for goologists. Undoubtedly this dome was forced up by great pressure, for it seemingly has no connection whatever with a glacier slide, considering the distance it lies from the nearest mountains, which is a low range, and practically only foothills.

The quality of the oil preduced in that section is almost without an equal, and according to a cross section map made by the Tuscan Oil Company which is operating in that district, which I have examined thoroughly, and no doubt that company has proven to be correct, by the drillings of their well. I find that the formation and all surface indications are most excellent. rough examination which I will make very soon I will forward to you a full detailed report, and the possibility of your
